

**BENTLEY BATHS**  
Amazing Walk-in Therapy Tubs

Dear Potential Provider:

I learned of the Fall Prevention Network (FPN) quite by accident, but I am so excited to have had the opportunity to contribute. After almost 6 years of full-time service to seniors, and others with high risk of falls, it is abundantly clear to me that the best solutions for helping those at risk of fall related injuries often involves the expertise of multiple service providers. To my thinking, this means service providers must collaborate with each other, and that is the very mission of FPN!

I have collaborated with other FPN providers on several projects to date, and our experience demonstrates that creating what I call “complimentary and non-competitive” alliances with other providers ALWAYS results in a better, more comprehensive and cost effective outcome for the client. Each partner brings their unique and focused expertise to the project and by cooperation, maximizes benefits. By way of example, on several projects where Bentley Baths was providing our Walk-in Therapy Tubs to seniors in need, we were able to identify fall risk conditions in other parts of the house of which the homeowners were either not aware, or not able to repair. Through FPN and other providers, we created solutions by sharing of our resources on the projects – in real time!

I invite you to join the Fall Prevention Network. Bottom line – every company that provides any aspect of construction, product, service, repair or remodel directed to “anyone” at risk of falls will benefit from a partnership with the FPN. Providers such as occupational therapists, physical therapists, fitness instructors, pharmacists and low vision specialists who address other types of fall risk factors will benefit from this partnership as well. Just the education and networking with others is highly valuable. As providers, we network, build relationship with complimentary service providers, have valuable resources to share, and receive referrals for future clients. Talk about a “no-brainer!” Sign-up now.

If you would like to learn more about how Bentley Baths has benefited through our involvement with the Fall Prevention Network please call me.

Sincerely,

**George E. Bentley, Esq. CAPS**
